Email: abhikkonar34@gmail.com
Mobile: +91-9064664560

SKILLS

Languages: Python, Java, SQL, HTML, CSS, JavaScript, TypeScript
Libraries: Bootstrap, Scikit-Learn, Pandas, NumPy, Matplotlib, OpenCV, PyTorch, PySpark
Frameworks: React.js, Node.js, REST APIs, Django, FastAPI, LangChain
Tools & Cloud: Git, Excel, Power BI, Tableau, Hadoop, Docker, Jira, Unity, AWS
Databases: MySQL, MongoDB

TRAINING

Fundamentals of Data Structures: Learn, Apply and Build Project | [Link](#) Jun’ 25 – Jul’ 25

- Gained hands-on experience implementing core data structures concepts using Java.
- Learned fundamental data structures including arrays, linked lists, stacks, and queues.
- Practiced efficient and structured Java I/O operations and file handling for data storage and retrieval.

Tech Stack: Java

PROJECTS

SmartInvest | AI Investment Research Agent | [Link](#) | [Live](#) Jun’ 26

- Applied a LangGraph.js AI agent workflow with Llama 3.3, automating complex investment research and reducing manual analysis time by 95%.
- Integrated Groq and Tavily APIs for stock telemetry, reducing overall query failure rates by 92% using validation pipelines.
- Executed a responsive Next.js dashboard with Recharts, reduced the application bundle size by 40% using code splitting.

Tech Stack: React.js, Next.js, Node.js, Express, LangGraph.js, LangChain.js, Groq APIs, Tavily APIs

PlacementCrack | AI-Powered Placement Preparation & Career Platform | [Link](#) | [Live](#) May’ 26

- Engineered a responsive, placement preparation platform using React.js, TypeScript and Python (FastAPI).
- Implemented an AI-driven mock interview simulator integrated with Hugging Face ASR for voice transcription and Groq API for response analysis, reducing assessment latency by 45%.
- Developed a secure, isolated code execution sandbox with dynamic progression lock and persisting user metrics in a database.

Tech Stack: React.js, TypeScript, FastAPI, Supabase PostgreSQL, Hugging Face, Docker, Vercel, Render

MAG-AI | Autonomous AI System | [Link](#) Apr’ 26

- Architected an autonomous AI system capable of decision-making using modular architecture.
- Configured intelligent task processing and automation logic to simulate human-like reasoning and actions.
- Built a scalable backend using Python with structured modules for efficient data handling and system operations.

Tech Stack: Django, PyTorch

CERTIFICATES

- AWS Academy Graduate – Cloud Architecting | AWS Academy | [Link](#) Jan’ 26
- AWS Cloud Quest: Cloud Practitioner | AWS Skill Builder | [Link](#) Jan’ 26
- Oracle Cloud Infrastructure 2025 Certified Data Science Professional | Oracle | [Link](#) Oct’ 25
- Introduction to Generative AI | Coursera | [Link](#) Feb’ 24
- Get Started with Python | Coursera | [Link](#) Jan’ 24

ACHIEVEMENT

- Solved 300+ problems on LeetCode | [Link](#) Jun’ 26

EDUCATION

Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 7.2</i>	Phagwara, India Aug’ 23 – Present
Kanksa High School <i>Intermediate; Percentage: 76.4</i>	Panagarh Bazar, India Aug’ 22 – Mar’ 23
Ramkrishna Ashram Vidyapitha <i>Matriculation; Percentage: 94.3</i>	Panagarh Bazar, India Jan’ 20 – Mar’ 21
